NeatCurbOS Walkthrough

Simple, step-by-step instructions to run Neat Curb daily operations in the admin dashboard, even if you are not technical.

Main website: **https://neatcurbllc.com**
Admin login: **https://neatcurbllc.com/admin/login**

5-Minute Daily Start

- Log in to admin.
- Open **Dashboard**.
- Review the NeatCurbOS cards.
- Check new leads + queued jobs.
- Send follow-up messages.

What This Guide Covers

- Dashboard overview
- NeatCurbOS module (all 6 pillars)
- Daily / storm-day workflow
- Common issues and fixes

Version: 2026-02-21

Prepared for Neat Curb Operations

QUICK NAVIGATION

Core Admin Pages

- `/admin` Dashboard
- `/admin/leads` Lead pipeline
- `/admin/clients` CRM
- `/admin/jobs` Scheduling + status

Revenue + Communication

- `/admin/lead-intake` Quote workflow
- `/admin/invoices` Billing
- `/admin/messages` Email/SMS
- `/admin/audit` Activity log

NEATCURBOS MODULE (EMBEDDED IN DASHBOARD)

How to Use Each Card

This module lives inside Dashboard and is your main control board.

Pillar	What It Means	What To Click
Fleet & Rig Management	See active and queued work so crews stay moving.	Open `/admin/jobs` and `/admin/work-orders`
Instant Quoting	Create fast, margin-aware estimates from lead details.	Open `/admin/lead-intake` then confirm in `/admin/leads`

Smart Scheduling	Move jobs from queued to in-progress to complete.	Use `/admin/jobs` and crew updates in `/admin/work-orders`
Customer & Lead CRM	Track leads, converted clients, and communications.	Use `/admin/clients` + `/admin/messages`
Financial Visibility	Watch invoice pipeline and paid revenue totals.	Review `/admin/invoices` + `/admin/audit`
AI Assistant	Use Business AI for quick navigation and workflow help.	Click **Open NeatCurbOS** or **Open Business AI** from the dashboard.

Tip: If you are unsure where to go, start at **Dashboard → NeatCurbOS card → click a shortcut**.

DAILY OPERATIONS

Simple Operating Rhythm

Morning (15 min)

- Open Dashboard.
- Check active and queued jobs.
- Review new leads.
- Send first follow-ups.

Midday (10 min)

- Update job statuses.
- Convert hot leads.
- Confirm crew ETAs.
- Reply to customer messages.

End of Day (20 min)

- Close completed jobs.
- Upload proof in work orders.
- Check invoice status.
- Review audit log quickly.

Lead Status: new → contacted → converted

Job Status: queued → in_progress → complete

Invoices: draft/sent need follow-up

STORM-DAY PLAYBOOK

When Snow Hits

1. Open `/admin` and click **Activate Snow Ready**.
2. Go to `/admin/jobs` and confirm queued snow jobs.
3. Use `/admin/work-orders` to track crew start/finish.
4. Send updates from `/admin/messages` to priority clients.
5. At day end, close completed jobs and check `/admin/audit`.

TOP 5 TASKS

Exactly What To Do

Task	Steps
New lead came in	Open `/admin/leads` → review details → set status to contacted.

Create a fast quote	Open `/admin/lead-intake` → enter service/address/details → submit quote data.
Schedule service	Open `/admin/jobs` → set scheduled date and status queued/in_progress.
Send customer update	Open `/admin/messages` → pick client → send SMS/email template.
Close job with proof	Open `/admin/work-orders` → finish job → upload proof photo.

TROUBLESHOOTING

If Something Looks Wrong

Cannot log in

- Use `/admin/login`.
- Use **Send Magic Sign-In Link** first.
- If needed, use **Owner Account Rescue** (for owner emails).
- If still needed, use password reset.
- Try a private browser window.

No data on dashboard

- Refresh browser once.
- Check internet is stable.
- Check `/admin/audit` for recent activity.

Messages not sending

- Confirm client phone/email exists.
- Try the other channel (SMS vs email).
- Re-open Messages page and resend.

Jobs not updating

- Confirm job was saved in Jobs page.
- Check staff view in Work Orders.
- Verify status values are valid.

Rule of thumb: If unsure, go back to Dashboard and use the NeatCurbOS card shortcuts.
